finishes

All Fino accessories come in stainless steel with satin finish as standard. We also offer 4 PVD finishes and a variety of powder coated options to choose from.

standard

All our products come in stainless steel with satin finish or matte black as standard.

pvd

Available in brass, copper, bronze and black. Physical Vapor Deposition is a coating technique produced in a vacuum that vaporises the coating material into a thin film of atoms onto our stainless steel. PVD coating is both incredibly durable and easy to clean, but also very environmentally friendly, much more so than traditional coating techniques.

powder coated

As a special order, all of our range can be powder coated to any specified Pantone or RAL colour.
