Installation

This unit must be installed by a licenced electrician and comply with all local requirements. When designing and installing within cabinetry by others, you shall ensure the unit receives sufficient airflow and that exclusion zones around the sensor are fit for purpose and to any minimum detail provided. RBA assumes no responsibility for safety or performance when not installed as per this note.

For best results, unit should be inspected and cleaned regularly as per the instructions in the RBA Product Warranty, Cleaning Care Guide, available on our websites.

Important: Installation instructions and current rough-in details should be furnished with each fixture. Do not rough in without certified dimensions. Dimensions are subject to manufacturer's tolerance of +/-10mm.

As improvements in the design and performance of RBA products are continuous, specifications may be subject to change without notice. The illustrations and descriptions herein are applicable to production as of the date of this Technical Data Sheet. Revised 09/25 © 2025 by RBA Group TD/Model RBA6300-003/0925
