Installation

Ensure wall construction is suitable to support the unit. Mount unit to wall with S-clip brackets provided. Fixings by others. Basin rim is typically mounted 864mm above FFL. Refer AS1428.1-2009 for mounting requirements where basin is for accessible use. Refer installation instructions for location of fixing points, trap outlet location etc.

Important: Installation instructions and current rough-in details should be furnished with each fixture. Do not rough in without certified dimensions. Dimensions are subject to manufacturer's tolerance of +/-10mm.
