Model RBA4806-711

Materials & Features

Modular PVD-coated shower T-rail to meet the requirements of AS1428.1 when installed correctly. Rails are ambidextrous, allowing the vertical rail to be positioned left, right or centre to suit site requirements. PVD coating is a premium coating process in which a solid material is vaporised and slowly layered onto a fixture. This results in a durable, versatile finish that's more environmentally friendly than traditional coating methods. Find out more at **rba.com.au/pvd**.

Technical Detail

Rail:	32mm [Dia], 304 Stainless Steel
Finish:	PVD Gunmetal
Fixings:	Supplied by others

Available Model

Installation

Warning: Grab rails are no stronger than the anchors or walls to which they are attached and must be firmly secured in order to support the loads for which they are intended. Refer to local codes and Installation Instructions for location of fixing points, method of attachment, etc.

For best results, unit should be inspected and cleaned regularly as per the instructions in the RBA Product Warranty, Cleaning Care Guide, available on our websites.
Important: Installation instructions and current rough-in details should be furnished with each fixture. Do not rough in without certified dimensions. Dimensions are subject to manufacturer's tolerance of +/-10mm.

Potential Installation - Left Hand
